## Purpose

This Securities Dealing Policy (Policy) sets out the policy of True North Copper Limited ACN 119 421 868 (the Company) and its subsidiaries (if any) (the Group) for its key management personnel, employees, contractors and consultants (collectively Officers) of the Group in relation to trading in shares in the Company.

For the Company, Key Management Personnel comprise only the Managing Director, the Managing Director's direct management reporters and the non-executive Directors of the Company (collectively the Key Management Personnel).

All Officers, their related parties and other associates as set out in Schedule 1 must comply with this Policy.

## 1. Objectives

The objectives of this Policy are to:

- eliminate the risk of Officers of the Group contravening the laws against insider trading;
- describe what trading is and isn't allowed;
- ensure the Company is able to meet its reporting obligations under the ASX Listing Rules; and
- maintain transparency with respect to trading in Company securities by Officers.

## 2. Dealing in securities – legal and other considerations

Insider trading is a criminal and civil offence under the *Corporations Act 2001* (Cth) (Corporations Act). A person who engages in insider trading may be subject to both civil and criminal penalties.

Sections 1042B to 10430 of the Corporations Act prohibit persons who are in possession of price sensitive information that is not generally available to the public from:

- dealing in the particular securities;
- communicating the information to others who might deal in the particular securities; or
- doing anything that might cause another person to deal in the particular securities.

The central test of what constitutes price sensitive information is found in s1042A of the Corporations Act. It provides that insider trading and continuous disclosure rules apply to information concerning a company that a reasonable person would expect to have a material effect on the price of that company's securities.

Officers of the Group will from time to time be in a situation where they are in possession of price sensitive information that is not generally available to the public. Examples are the period during which a major transaction is being negotiated.

This Policy seeks to identify periods where Officers, their related parties and other associates are prohibited from trading in Company securities to eliminate the potential of committing a contravention of insider trading laws.

## 3. Securities trading policy

Before dealing in Company securities, Officers should confirm that:

- they do not have any inside information regarding Company securities; and
